The PAD-20 is a remote indicator compatible with addressable and conventional detectors that are installed in closed or hidden enclosures.

The PAD-20 is connected to a detector and is designed to be installed outside the room or enclosure where the detector is located.

Features

- Compatible with addressable or conventional detectors of Detnov
- Surface or recessed mounting
- Pre machining for tube inlet
- High luminosity LED

Technical features

Indicator		
Operating voltage:	From 5 to 36VDC	
Alarm current consumption:	6mA (a 36Vdc) 1,4mA (a 5Vdc)	
Connections		
Twisted pair, max. wiring gauge 2.5 mm ²		
Environment		
Operating temperature:	From -10°C to +55°C	
Relative humidity:	95% without condensation	
IP Index:	IP40	
Physical features		
Size:	Ø 69 mm x 26 mm	
Material:	ABS
