Product designation

DSPA, 12-# Series, aerosol generating fire extinguishing system units

Agent/distributor

Electropar New Zealand
35 Lady Ruby Drive, East Tamaki, MANUKAU, AUCKLAND, NEW ZEALAND, 2013

Registrant

DSPA.nl
Hulzenseweg 10-20, NIJMEGEN, NETHERLANDS, 6534 AN

Producer

DSPA.nl
Hulzenseweg 10-20, NIJMEGEN, NETHERLANDS, 6534 AN

Conformance criteria and evaluation

The DSPA, 12-# Series, aerosol generating fire extinguishing system units have been evaluated and verified as conforming with the relevant requirements of the following criteria.

1. Australian Standard AS 4487-2013, 'Condensed aerosol fire extinguishing systems— Requirements for system design, installation and commissioning and test methods for components'.
2. BRL-K23001, 'Evaluation Guideline for aerosol fire extinguishing'.
3. EN 15276-1, 'Fixed firefighting systems - Condensed aerosol extinguishing systems - Part 1: Requirements and test methods for components'.
4. International Standard ISO 15779:2011, 'Condensed aerosol fire extinguishing systems - Requirements and test methods for components and system design, installation and maintenance - General requirements'.
5. prEN 15276-1:2017, 'Fixed firefighting systems - Condensed aerosol extinguishing systems - Part 1: Requirements and test methods for components'.

Limitations/conditions of conformance

Limitations/conditions of conformance, where identified on this certificate, are derived from qualifications from evaluation(s) for conformity and/or other related technical documentation. All details with respect to design, assembly and installation instructions and restrictions should be checked against the producer's current technical manual/data sheets and the requirements of the Authority having Jurisdiction.

(Limitations/conditions of conformance continue)

This certification is issued within the scope of CSIRO Verification Services – Rules governing ActivFire Scheme and is valid only for the product(s) as submitted for evaluation and verification of conformity, subject to the following conditions.

- Reference to details, limitations and requirements, where documented as a schedule/enclosure with this certificate.
- The Registrant is responsible for their attestation of conformity and ensuring that on-going production complies with the conformance criteria defined in this certificate.
- This certificate will not be valid if any changes or modifications are made to the product which have not been notified and validated by CSIRO Verification Services.
- This certificate is subject to periodical re-validation upon verification that all requirements, as determined by the conformity assessment body, continue to be satisfactorily met by the Registrant.
- This certificate may only be reproduced in its published form, without modification and inclusive of all schedules/enclosures.
- Any changes, errors or omissions, must be submitted in writing and if necessary or requested, substantiated with relevant evidence.
- Any representations, such as advertising or other marketing related activities or articles shall reflect the correct contents of this certificate and conform with all relevant trade practices and consumer protection legislation and regulations.
- Any terms or conditions of use as applicable to content and documentation as published or accessed through web sites administered by the CSIRO Verification Services.

Schedule to Certificate of Conformity

Certificate num.	Registration date	Version		Valid until	
		Number	Issue date		
afp - 3615	9-Jul-2021	2	12-Mar-2024	30-Apr-2025	Page 2 of 2

Specified limitations/conditions, determined from the evaluation for conformity, include the following.

- i. System design, installation and maintenance shall be in accordance with the producer's design, installation, operation and maintenance instruction manual (refer Schedule of relevant articles), including detailed instructions for correct usage and maintenance and the requirements of AS 4487-2013 and authorities having jurisdiction
- ii. Detection, actuation and control systems shall be designed and installed in accordance with the requirements of AS 4487-2013 Appendix A and authorities having jurisdiction.
- iii. Where aerosol generators are used in a potentially explosive application, the suitability of the generator to the atmosphere for the determined life shall be assessed.
- iv. The numbers and types of the extinguishing components have to be determined in conformity with the guidelines and calculation methods of the supplier.
- v. Distribution is to be done by supplier or companies authorised by the supplier.
- vi. Before usage an instruction is to be given by a trainer or instructor for this product authorized by the supplier.
